

OLCOTT™

A PROUD BRAND OF PRETIUM

PRODUCT CATALOG

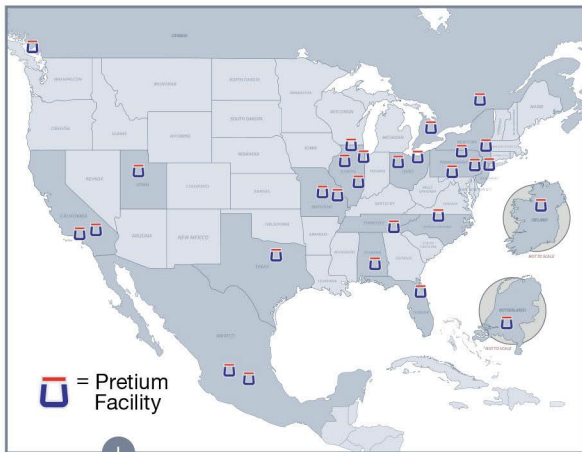

HISTORY

Olcott was founded in 1969 and is a proud brand of Pretium Packaging. The acquisition of Olcott in 2019 made Pretium a market leader in jars and closures for the personal care & beauty market, providing solutions for haircare, skincare, body care, and the general wellness category. We are highly focused on the mid-market, with dedication to innovation solutions to meet specific market needs.

PRETIUM'S EXPANDED FOOTPRINT

Pretium has expanded to include 28 strategically located facilities. These facilities also supply our customer base, but focus primarily on plastic bottles.

Ballyconnell

“ Exceptional plastic packaging for health and beauty, cosmetics, food, pharmaceutical, neutraceutical and OTC products. And that's just for starters. ”

CAPABILITIES

INJECTION MOLDING

Our state-of-the-art automated manufacturing facility, 40 miles west of Chicago, runs 24/7 to produce more than 200 products with state of the industry technology and machinery. Our extensive line of proprietary plastic jar and closure combinations is available off-the-shelf or created for you from scratch to your exact specs.

Our Packaging Offerings:

- + Plastic jars
- + Plastic closures

LINING

Liners are a critical factor in cap selection, since they can prevent leaks, provide evidence of tampering and increase product shelf life. Our wide selection of liners includes stock or custom options in the following materials:

- + PE foam
- + Pressure sensitive
- + Induction foil
- + Pulp/vinyl
- + Barrier foil

DECORATING

Our versatile in-house decorating department can give your brand an exceptional look that makes it stand out on the shelf.

Customize your package with:

- [1] **Jar labeling:** Pressure sensitive wrap or front and back labels.
- [2] **Cap labeling:** Pressure sensitive label on the top of your closure.
- [3] **Cap printing:** One color design printed on the top of your closure.
- [4] **Silk-screen printing:** Up to six colors on a state-of-the-art UV ink OMSO.
- [5] **Offset printing:** One to five colors on jars and closures.

MOLD DESIGN

Whether you're looking for an off-the-shelf design or need something entirely new, our engineering and mold development department is ready to assist to turn your ideas into brilliant, eye-catching products.

OLCOTTTM
A PROUD BRAND OF PRETIUM

SINGLE WALL

Olcott single wall, straight side jars are used for everything from car wax to leg wax. Fabricated from a single wall of polypropylene, crystal styrene or clarified polypropylene, our single wall jars are available as stock or customized to your specific requirements.

Straight Side | Polypropylene

32 Available Sizes

Straight Side | Clarified Polypropylene

Provides higher level of clarity than the standard polypropylene jar.

31 Available Sizes

Straight Side | Crystal Styrene

Provides highest level of clarity. Not recyclable.

21 Available Sizes

FEATURES

- + Wide mouth
- + Continuous thread necks
- + Recyclable polypropylene
- + Stock sizes: .25oz – 40oz

Frosted Straight Base | Polypropylene

Available Sizes:

2oz-58 | 4oz-70 | 4oz-89 | 8oz-89 | 10oz-89

Frosted Dome Base | Polypropylene

Available Sizes:

2oz-58 | 8oz-89

FEATURES

- + Straight or domed base
- + In-mold frosting
- + BPA-free
- + Recyclable polypropylene
- + Proposition 65 compatible

DOUBLE WALL

Versatile and durable, our double wall jars deliver the heft of a thick wall jar and extra protection from the elements at a reasonable price. Made from two pieces of polypropylene or clarified polypropylene, our double wall jars are shatter-resistant and ideal for a broad range of products.

We produce double wall jars in white frosted and high-polish smooth finishes.

PET JARS

Our PET jars are clearly different — they are the result of a revolutionary molding process that produces a seamless, crystal-clear jar. Our PET jar is our most sustainable jar line (#1 recycle symbol) - with ability to increase sustainability by adding PCR content, up to 100%.

They're available from stock or as a custom design and/or color.

Production of our PET jars is also available in our sister sites located in PA, MO, FL, TX, and UT in order to optimize the supply chain and reduce freight costs.

FEATURES

- + Most sustainable jar solution
- + Recyclable - recycle #1
- + Concentric package
- + Uniform wall thickness
- + Lighter construction
- + Clear as ice sidewalls
- + Stronger, more durable design
- + Increased shatter resistance
- + Lower carbon footprint

SPECIALTY JARS

Sometimes, an existing product needs a refresh. Or a new product doesn't fit the traditional mold. That's why we offer specialty jars to solve multiple challenges. From tapered sides to beaded snap jars, Olcott gives you more options.

CAPS & CLOSURES

Olcott caps and closures deliver superior fit and finish. Need a lined cap or closure? Our most popular closures are available as stock when your deadlines are tight. Need a custom style? No problem. We'll work together to find a solution that meets your special requirements.
