Why Nutrition & Wellness Brands Choose Pretium

Packaging is more than a container. It's a catalyst.

Today's Nutrition & Wellness brands need packaging that does more than hold product. The right packaging helps you launch faster, stand out in crowded categories, protect the consumer experience and scale with confidence across SKUs, channels and partners.

But as your brand grows, packaging decisions get more complex. Jars, bottles, canisters and closures must support today's requirements while keeping you ready for tomorrow's growth. That's where Pretium comes in.

Our mission is to help you navigate complexity with clarity so you can turn packaging into a competitive advantage.

Use this catalog to explore packaging options built for Nutrition & Wellness brands like yours. And when you're ready, connect with your Pretium sales representative to define the path that gives your team confidence in what comes next.

In a crowded supplier landscape, the Pretium difference isn't just in our product, it's how we show up as your partner. Based on direct customer feedback, these are a few of the areas where Nutrition & Wellness brands rate Pretium especially highly.

Broad Stock Portfolio

A robust range of stock packaging options designed to help you bring your product to market quickly without delay. Our broad portfolio provides access to scalable product families, making it easier to expand into new sizes while maintaining a consistent look, trusted brand experience and recognizable shelf presence.

Design & Customization

Creative options and accurate format reproduction help you build packaging that fits both your brand and your application.

Contract Manufacturer Partnerships

With an extensive relationship base with industry contract manufacturers, we can seamlessly work with your filler to scale your product line.

Reliable Supply & Execution

Dependable supply and consistent execution help protect production timelines as SKUs expand and demand grows.

Sustainability Support

Material expertise, PCR options, and practical guidance help you make progress toward your sustainable packaging goals without compromising performance.

Where You'll Find Us

20+ Manufacturing Sites in North America

Nutrition & Wellness packaging, especially for powders, is highly freight-sensitive, making proximity and supply continuity critical. Pretium's North American footprint and redundant tooling across core lines give brands a competitive advantage: reliable supply, faster response, and greater confidence as demand scales. We also have one of Europe's most robust portfolios of PET vitamin packers made in our Etten-Leur, Netherlands facility.

Engage with our Design Team

Need Something More Custom?

If your Nutrition & Wellness packaging opportunity calls for more than a stock solution, Pretium can help you explore what's possible through our Woodward Ave Design Studio.

In a focused, collaborative session, your team works alongside Pretium's market, design, engineering, sustainability and commercialization experts to co-create packaging that reflects your brand, supports your product requirements and performs in the real world.

Co-Create Your Next Packaging Solution

Whether you're launching a new product, refreshing an existing format or looking for stronger shelf differentiation, the Woodward Ave Design Studio helps bridge the gap between bold ideas and production-ready packaging.

Together, we align on your goals, explore practical design directions and define the clearest path toward prototyping, validation and commercialization.

From Idea to Shelf-Ready Packaging

Bold packaging ideas can lose momentum when design, engineering and production aren't aligned early. Pretium brings those perspectives into the room from the start — helping your concept move forward with clarity, confidence and its original intent intact.

Schedule a Woodward Ave Design Studio Session

Connect with your Pretium sales representative to discuss whether a design studio session is the right next step for your Nutrition & Wellness packaging opportunity.

Sustainability That Works for You

Navigate sustainable packaging with clarity and confidence.

Sustainable packaging is more than a materials choice. It requires balancing performance, cost, aesthetics, compliance, recyclability and brand expectations.

Pretium helps Nutrition & Wellness brands make practical progress toward your sustainable packaging goals with solutions designed to perform in the real world.

Recyclable by Design

We design with end-of-life in mind, prioritizing packaging that works within today's recycling systems without sacrificing strength, usability or product protection.

Pretium manufactures primarily in **PET, HDPE and PP** — materials widely accepted across North America recycling streams — and aligns with evolving infrastructure and **APR guidance** to help reduce recyclability risk.

Pretium helps Nutrition & Wellness brands make practical sustainability progress with packaging solutions designed to perform in the real world.

Post Consumer Resin (PCR)

Incorporating recycled content matters, but it must be reliable, safe and scalable.

Pretium offers **30%, 50% and 100% PCR options** across select formats, including FDA-compliant food-contact applications, helping brands pursue sustainability goals without compromising quality or supply continuity.

Lightweighting

One of the most effective ways to reduce environmental impact is to use less material — without compromising performance.

Our engineering teams collaborate with you to **optimize container design**, reducing weight while maintaining:

- **Structural integrity**
- **Product protection**
- **Manufacturing efficiency**

This approach results in lower material usage, reduced carbon footprint and no performance tradeoffs.

NIR Detectable Black

Black packaging helps Nutrition & Wellness brands create a premium shelf presence, but traditional black colorants can be difficult for optical sorting systems to detect.

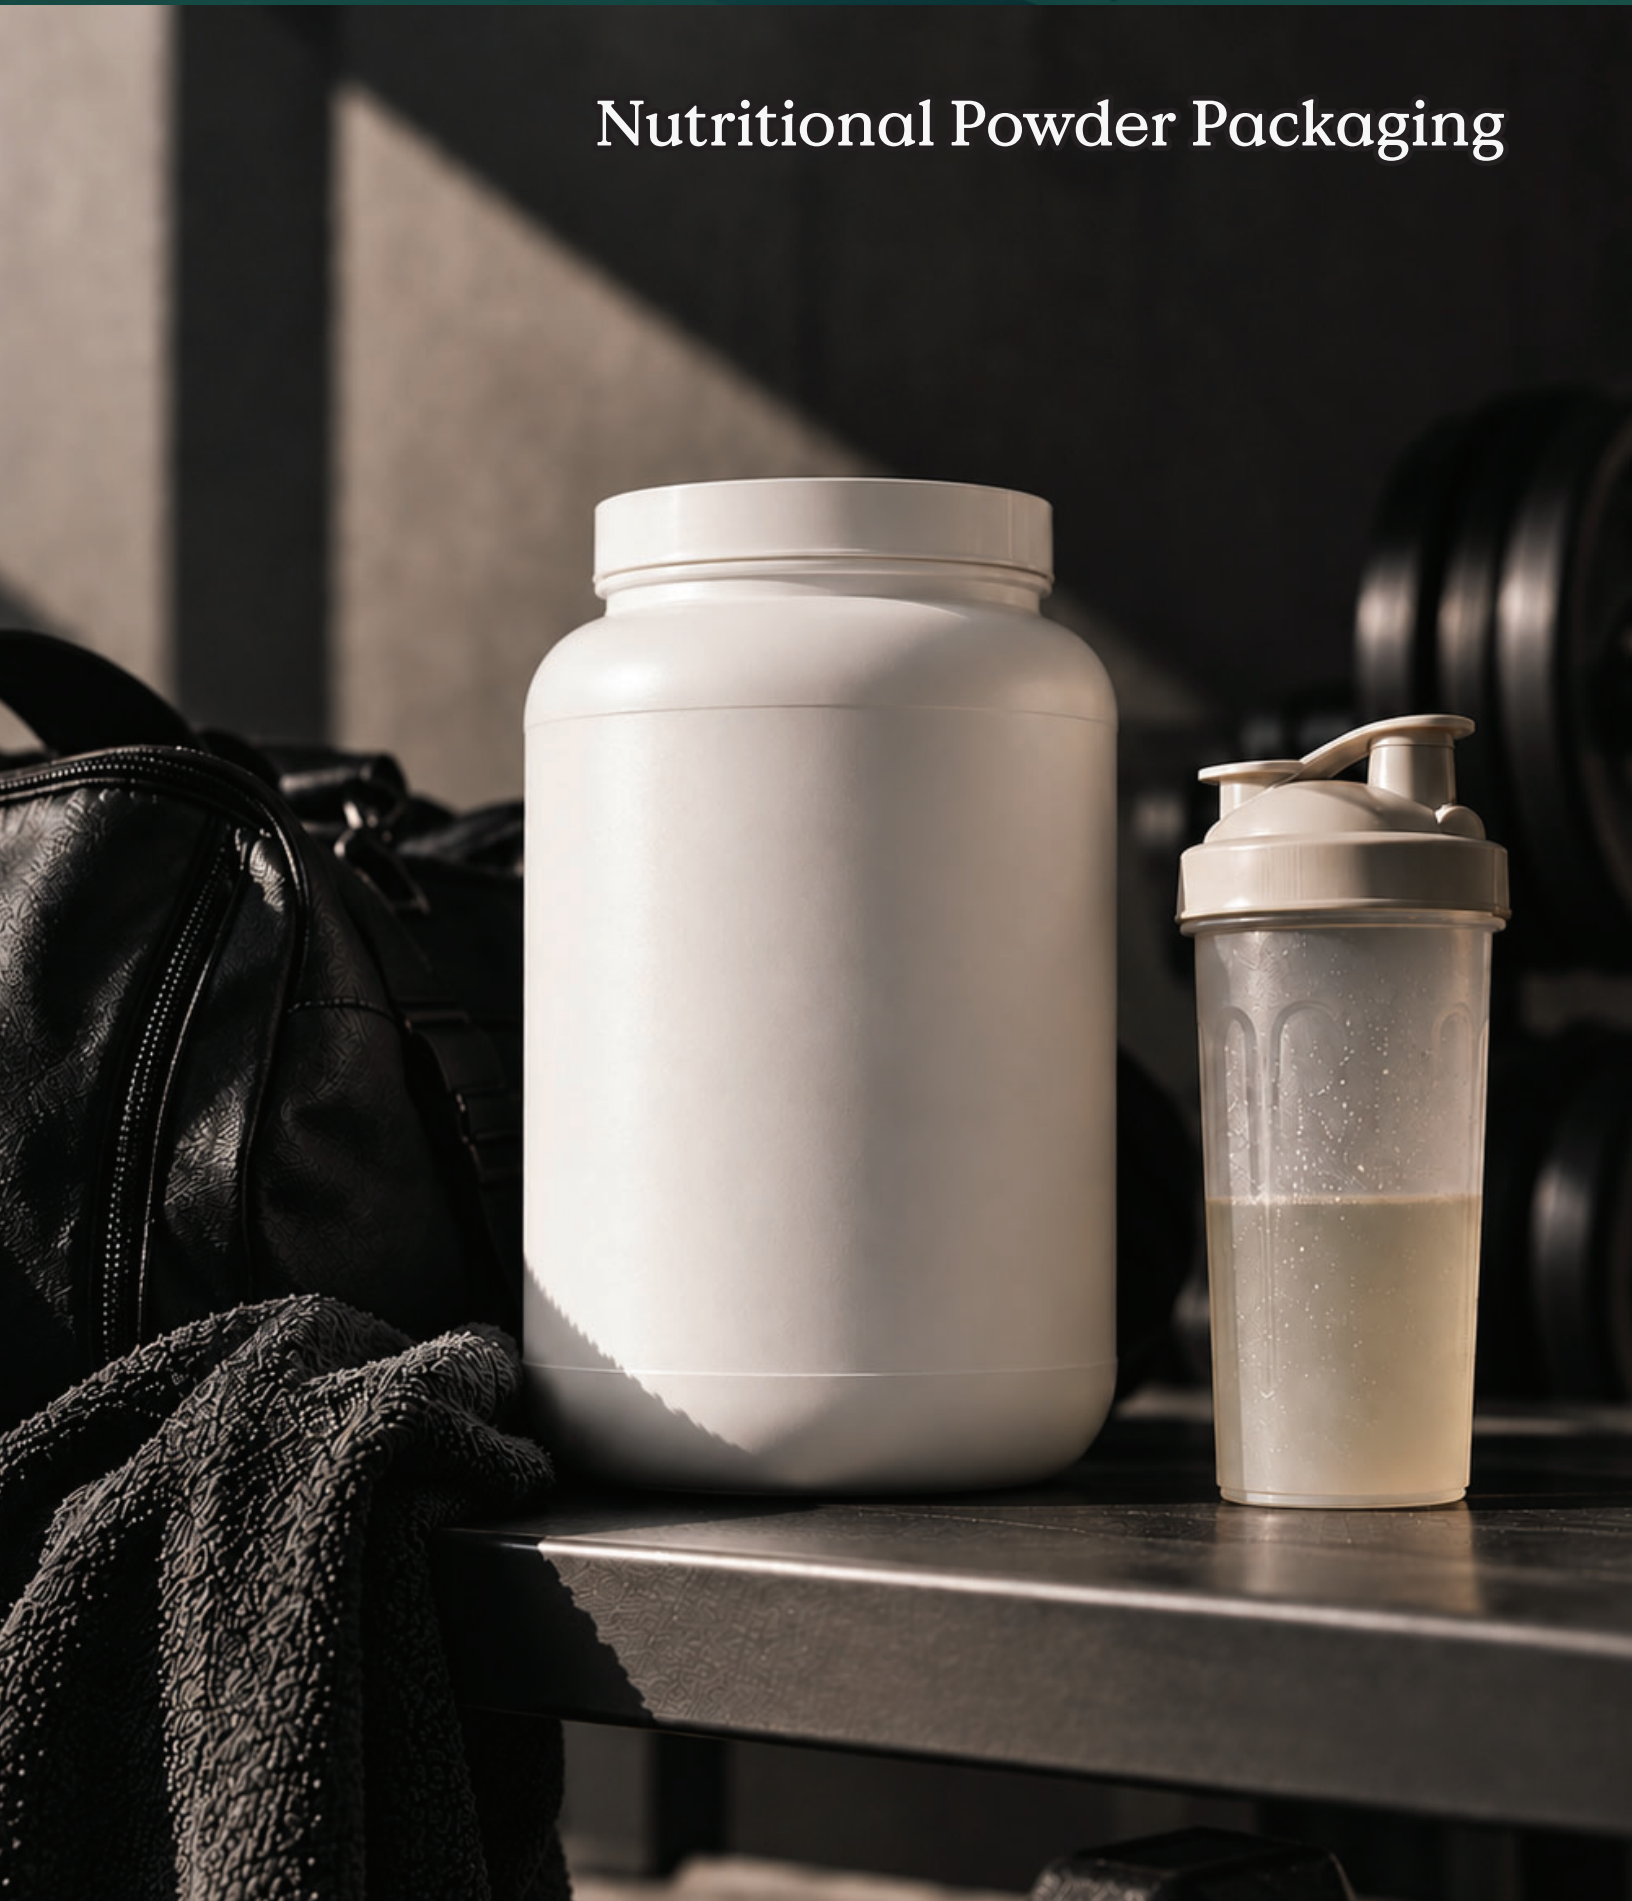

Pretium offers **NIR-detectable black colorant options** designed to support optical sorting at many material recovery facilities while preserving the bold look brands rely on.

Recycling capabilities vary by facility, so this is not a universal guarantee. But it is a meaningful step toward better compatibility with modern recycling technology — and a smarter way to approach black packaging moving forward.

HDPE Canisters with Lip & Label Base

Very similar to our core line of Canisters with Lip, Pretium also offers six sizes of HDPE Canisters that have a lip and a flared label base.

Size	Mold #	Neck Finish	Standard Packout	Weight	Height x Diameter
32oz	E1038	120-400 MOD	1680/pal	50	3.452 x 5.000
55oz	E1050	120-400 MOD	1215/pal	65	5.918 x 5.000
60oz	E1051	120-400 MOD	1232/pal	70	6.267 x 5.000
70oz	E1053	120-400 MOD	1144/pal	75	6.970 x 5.000
76oz	E1054	120-400 MOD	880/pal	90	8.358 x 5.000
100oz	E1058	120-400 MOD	729/pal	110	9.810 x 5.000

HDPE Canisters Smooth

HDPE Smooth Canisters are available in sizes from 49oz to 169oz, including some styles with flared bases and others with special neck finishes. Please confirm the neck styles of the canisters you are interested in so you can pair them with the correct closures.

Size	Mold #	Neck Finish	Standard Packout	Weight	Height x Diameter
49oz	E1046	110-400 MOD	1404/pal	70	6.957 x 4.220
50oz	E1047	120-400 MOD	1377/pal	55	5.217 x 5.000

101oz	E1059	135-HQC	660/pal	108	8.402 x 5.516
168oz	E1064	165-4LEAD	378/pal	185	9.683 x 6.725
169oz w/ Flared Base	E1065	165-4LEAD	378/pal	175	9.683 x 6.975

HDPE Jars with Lip

Our HDPE Jars with Lip are most often used for active nutrition and collagen supplements. Sizes and dimensions below are for jars with an 89-400 neck finish. Most of these jars are also available with a deep skirt neck finish option.

Size	Mold #	Neck Finish	Standard Packout	Weight	Height x Diameter
14oz	E1025	89-400	4740/pal	28	2.866 x 3.688
15oz	E1026	89-400	4800/pal	33	3.158 x 3.688
16oz	E1027	89-400	3792/pal	36	3.654 x 3.688
17oz	E1028	89-400	3744/pal	36	3.817 x 3.688
19oz	E1030	89-400	3120/pal	38	4.086 x 3.688
20oz	E1031	89-400	2964/pal	40	4.562 x 3.688
25oz	E1034	89-400	2340/pal	48	5.840 x 3.688
32oz	E1038	89-400	2184/pal	57	6.404 x 3.688
33oz	E1039	89-400	2212/pal	70	6.756 x 3.688
40oz	E1040	89-400	1920/pal	63	7.128 x 3.688

HDPE Jars with Large Lip

Very similar to the product line above, HDPE Jars with Large Lip each feature an 89-400 MOD neck finish. The slightly larger lip at the top of the jar provides extra stability when filling and capping the jar.

Size	Mold #	Neck Finish	Standard Packout	Weight	Height x Diameter
14oz	E1025	89-400 MOD	4740/pal	28	2.921 x 3.688
15oz	E1026	89-400 MOD	4800/pal	32	2.997 x 3.688
16oz	E1027	89-400 MOD	3792/pal	36	3.709 x 3.688
17oz	E1028	89-400 MOD	3744/pal	36	3.872 x 3.688
19oz	E1030	89-400 MOD	3120/pal	38	4.143 x 3.688
20oz	E1031	89-400 MOD	2964/pal	45	4.617 x 3.688
25oz	E1034	89-400 MOD	2340/pal	48	5.895 x 3.688
32oz	E1038	89-400 MOD	2184/pal	57	6.459 x 3.688
33oz	E1039	89-400 MOD	2212/pal	60	6.811 x 3.688
40oz	E1040	89-400 MOD	1920/pal	63	7.183 x 3.688

HDPE Smooth Jars

Jars in this product family are the extrusion blow molded line from the Custom Blow Molding (CBM) portfolio. Manufactured at multiple locations across North America, this is a versatile product line for tablets, powders, creams, pastes and waxes. For other sizes, see the HDPE Wide Mouth Jars on page 18.

Size	Mold #	Neck Finish	Standard Packout	Weight	Height x Diameter

HDPE Wide Mouth Jars

Jars in this product family are from the Alpha Packaging jar portfolio, and include several sizes of injection blow molded jars. Some jars in this line have straight sides that are as wide as the neck opening, and some jars have shoulders. For other sizes, see the HDPE Smooth Jars on page 17.

Size	Mold #	Overflow	Neck Finish	Case Pack	Weight	Height x Diameter	Process

PET Seamless Jars

Our line of Seamless PET jars are clearly different as the result of a revolutionary molding process that produces seamless, crystal clear jars without waves or distortion. These recyclable jars also have lighter construction compared to conventional PET jars for a sustainability success story.

Polypropylene Closures

Pretium offers a variety of flat and domed closures to accommodate your jar requirements. All of our caps and closures deliver superior fit and finish. Need a lined cap or closure? We've got what you need to match up with our HDPE, PET, PP, CS and CP jars from 48mm to 120mm. Closures are sold separately when you purchase the primary container from Pretium. For more information, speak with your Pretium account manager.

Pill, Tablet & Gummy Packaging

PET Round Packers (C/T)

Straight sided wide mouth packers are typically used for pharmaceuticals, vitamins and nutritional supplements in pill or tablet form. Pretium's flagship line of PET packers feature a square bead beneath the threads for enhanced performance of tamper-evident shrink bands. They also have more rounded shoulders than competitors' styles.

PET Eco-Line Packers

Pretium's Eco-Line packers utilize an optimized preform and are designed for sustainability. Some sizes are up to 30% lighter than our traditional PET Round Packers. Eco-Line packers are made in Salt Lake City, Utah and Hazleton, Pennsylvania, to satisfy customers across North America. They are sold in full truckload quantities of bagged pallets, and colors may require a higher MOQ.

PET Pinch Waist Packers

Pretium's line of PET Pinch Waist Packers features a 53mm neck across all four sizes, so the line is ideal for filling large tablets and supplements in gummy form. The neck threads are also deep enough to accept a CRC closure. The sleek tapered waist sets your product apart on retail shelves, and works particularly well with full-body shrink sleeves.

Size	Base Part Code	Overflow	Neck Finish	Case Pack	Weight	Height x Diameter	Process

HDPE Starplex Cylinders

These bottles were designed for optimal filling line efficiencies. Many sizes share the same diameter, so fillers have faster changeovers when switching between adjacent sizes. The shared 53mm neck among the eight larger sizes also enables faster filling line speeds than bottles with smaller neck diameters..

HDPE Round Packers (C/T)

Straight sided wide mouth HDPE Packers are typically used for pharmaceuticals, vitamins and nutritional supplements in pill or tablet form. This basic packer style, featuring a continuous-thread neck finish, is manufactured in St. Louis, Missouri, but we also have several other styles of round packers made in other regions.

HDPE Oblong Space Savers

Pretium manufactures three different large, wide mouth HDPE Oblong Space Savers. The oblongs are shorter and more squat than our Shelfpacks/Blakes with a larger label panel area and wider neck openings. They are designed to fit more products on a standard shelf than with round packers.

Size	Mold #	Overflow	Neck Finish	Case Pack	Weight	Height x Width x Depth	Process

HDPE “Quality Line” Packers

This line of HDPE Packers originated in Ypsilanti, Michigan, but the molds have been moved to other plants in the Pretium network. We retained the most popular sizes in this product line because so many pharmaceutical customers have these specified for their FDA filings.

HDPE VET Line Packers

Our HDPE Vet Line offers a full range of bottles from 30cc to 750cc capacity. Fill lines are available on the 120cc (100cc fill line) and 200 cc (150cc fill line), and are ideal for a wide range of human and animal health applications. Bottles are manufactured in our Cleveland, Tennessee plant with convenient shipping to the southeastern US.

HDPE Metro Cylinders

Pretium's line of HDPE Metro Cylinders is a competitively-priced line of injection blow molded cylinders manufactured in our Hillsborough, New Jersey plant. We're calling them the Metro line because brands and CMOs all along the East Coast take advantage of this full product line made right in their back yard.

Size	Mold #	Overflow	Neck Finish	Case Pack	Weight	Height x Diameter	Process

PET Traditional Boston Rounds

Our extensive line of PET Traditional Boston Rounds runs from 1 ounce to 1 liter in size. The 4-, 8-, 12-, 16- and 32-ounce sizes feature a taller, more slender profile than our line of Squat Boston Rounds, but the smaller sizes fit in with either family. We offer several neck finishes ideal for pumps, sprayers and droppers.

PET Modern Rounds

Modern Rounds are ideal for liquid pharmaceuticals and supplements, and a variety of neck finishes accommodate pumps, droppers and sprayers. Our 1-ounce style features straight sides, while the 2-, 4-, 8-, 12-, 16- and 32-ounce styles all have indented label panels. The indented label panel area gives added protection to the label on retail shelves.

PET 38mm Bullet Rounds

Our line of 38mm PET Bullet Rounds is ideal for liquid OTC products that need a wider neck opening. The bottles are easy to label, screen print or shrink wrap. The 38mm neck gives these bottles a different shelf presence than traditional narrow-neck bullet-style bottles.
